

SURGE INU

HOW TO BUY?

STEPS TO BUY

Currently, \$SURGE can be bought on [PancakeSwap](#).

Follow the steps below to purchase Surge Inu:

1. First, download [Metamask](#) and create a wallet. Carefully save the recovery phrase and never share it with anyone.
2. Connect Metamask to BSC. To do so, follow [this guide](#).
3. Click on the Metamask icon on top of your browser (or find it in extensions) and switch from *Ethereum Mainnet* to *Binance Smart Chain Mainnet*.
4. Click the *Assets* tab and then *Add Token*. Add the contract address of Surge Inu:
0x68fbD4D89BA15343E7D2457189459b7AC80a20a3
5. Next, if you don't have BNB on your wallet yet, you should add it. To do so, go to [Binance](#) first and buy BNB. Then, to add it to Metamask, first find your Metamask wallet address, which you can find under the *Network* menu on top. In Binance, open Metamask, locate the *Wallet* menu, select *Fiat and Spot* and then find BNB in the *Crypto Balance* table. Click *Withdraw* next to BNB. To withdraw, you will be asked to enter the Metamask address.
6. Next, go to this [PancakeSwap](#) link and connect your wallet by clicking *Connect Wallet*. Make sure you have the *Binance Smart Chain Mainnet* selected. In settings, set the *Slippage Tolerance* to 10 %.
7. In the *From* field, select BNB. In the *To* field, first enter the amount you want to purchase Surge Inu for. Then click *Select currency* and paste the following Surge Inu address into the search box:
0x68fbD4D89BA15343E7D2457189459b7AC80a20a3
8. Confirm your transaction by clicking *Swap*!
